

LIMITED WARRANTY STATEMENT PHOTOVOLTAIC DYMOND MODULE PRODUCTS

Effective August 1st, 2017

TEN (10) YEAR LIMITED PRODUCT WARRANTY

Subject to the exclusions contained below, Canadian Solar Inc. ("Canadian Solar") warrants to the buyer (the "Buyer") that the module shall be free from defects in materials and workmanship that have an effect on module functionality under normal application, installation, use and service conditions as specified in Canadian Solar's standard product documentation.

Canadian Solar warrants that the module will maintain the mechanical integrity and stability in accordance with approved operation methods described in our installation manual and its annexes; the glass of the module will maintain its integrity provided there are no indications of localized impacts or external forces; and the cable and connector plug of the module will remain safe and operational provided the module is professionally installed. Any damage caused by abrasion, improper installation, artificial damage or animals are excluded from this warranty.

Claims under this warranty will only be accepted if the Buyer can provide proof that the malfunctioning or non-conformity of the module results exclusively from defects in materials and/or workmanship under normal application, installation, use and service conditions specified in Canadian Solar's standard product documentation. Any color change of the module or any other changes in module appearance do not represent defects, insofar as the change in appearance does not stem from defects in material and/or workmanship, and does not cause degradation of functionality of the module.

THIRTY (30) YEAR LIMITED PERFORMANCE WARRANTY

Canadian Solar warrants that for a period of thirty years the module will maintain a level of performance as set forth below:

For Polycrystalline Module Products:

- During the first year, Canadian Solar warrants the actual power output of the module will be no less than 97.5% of the labeled power output.
- From year 2 to year 30, the actual annual power decline will be no more than 0.5%; by the end of year 30, the actual power output will be no less than 83% of the labeled power output.

For Standard Monocrystalline Module Products:

- During the first year, Canadian Solar warrants the actual power output of the module will be no less than 97% of the labeled power output.
- From year 2 to year 6, the actual annual power decline will be no more than 0.7%; from year 7 to year 30, the actual annual power decline will be no more than 0.5%; by the end of year 30, the actual power output will be no less than 81.5% of the labeled power output.

For Monocrystalline PERC Module Products:

- During the first year, Canadian Solar warrants the actual power output of the module will be no less than 97.5% of the labeled power output.
- From year 2 to year 30, the actual annual power decline will be no more than 0.5%; by the end of year 30, the actual power output will be no less than 83% of the labeled power output.

The actual power output of the module shall be determined for verification using Standard Testing Conditions only. The actual power output measurement is either carried out by a Canadian Solar facility or by a Canadian Solar recognized third-party testing institute. Testing equipment uncertainty will be applied to all actual power output measurements.

WARRANTY EFFECTIVE DATE

The warranty effective date shall be defined as the date of installation or ninety (90) days after the delivery by Canadian Solar, whichever date is earlier.

EXCEPTIONS

The limited warranties set forth herein **DO NOT** apply to any module which has been subjected to negligence in transportation, handling, storage or use, or has been repaired, or in any way tampered with, or which has been subjected to extraordinary salt or chemical exposure, or which has been subjected to improper installation, application, alteration, unauthorized service, improper system design which caused constant shading to the modules or which has been subjected to power failure surges, flood, fire, direct or indirect lightning strikes, or other acts of nature, or which has been subjected to accidental breakage, vandalism, explosions, acts of war, or other events outside Canadian Solar's control.

In addition, the limited warranties do not apply to any cosmetic change in appearance stemming from the normal wear and tear over time of product materials. Warranty claims will not apply if the product label, type or serial number of the applicable product has been altered, removed or made illegible.

REMEDIES

If the product fails to conform to the warranties set forth above, Canadian Solar, at its option, will either repair or replace the product or provide additional modules to make up the total wattage loss or provide an appropriate residual market value of the product(s) as compensation. All remedies shall be based upon the warranted power output of the module at the reporting time of the warranty claim.

Canadian Solar shall cover reasonable transportation costs for returning the affected product to Canadian Solar and shipping the additional, repaired or replaced product to the Buyer. If Canadian Solar opts repair as the remedy, Canadian Solar shall cover reasonable material and labor costs related to the repair. The costs and expenses for the removal, installation or reinstallation of the module shall remain with the Buyer.

Any repair or replacement of an affected product shall not increase the applicable warranty period. The warranty period for replaced or repaired product is the remainder of the warranty for the affected product. Canadian Solar reserves the right to deliver a similar product (of similar size, color, shape, and/or power output) in replacement of the returned product should the production of the returned model be discontinued or is otherwise unavailable. Ownership of all products which have been replaced is passed to Canadian Solar.

EXCEPT AS OTHERWISE PROVIDED BY APPLICABLE LAW, THE FOREGOING REMEDIES STATE CANADIAN SOLAR'S SOLE AND EXCLUSIVE OBLIGATION AND THE BUYER'S SOLE AND EXCLUSIVE REMEDY FOR A BREACH OF THE FOREGOING LIMITED WARRANTY.
